

Shopfitting Case Study

PJH Enfield

Overview:

PJH required their Enfield showroom to be remodelled to update the decor and to facilitate new product ranges. This encompassed the installation of new wall sections, the formation of new windows and the introduction of a walnut bath plinth and wall unit. We completed the project in 5 days.

Client benefits:

To ensure the client dealt with only a single point of contact, we managed our supply chain to complete the tiling, electrical and decoration works.

Key Learnings:

We had to be very flexible on site to manage a number of changes of specification and design as we were working on the project.

Why KC:

Historically PJH have always been very happy with the service we provide and the final product delivered. The Enfield showroom relaunch was a great success, with clients commenting on the quality of the finish.
